NIKHIL NISHAD

MERN Stack Developer

Bhilai, India | 6264345297 | nikhilnishad622@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building and deploying scalable MERN stack (MongoDB, Express.js, React.js, Node.js) applications. Delivers end-to-end enterprise solutions — ERP, HR management, MIS, and purchase/inventory systems — by translating client requirements into production-ready software, with a strong focus on responsive UI, secure REST APIs, and performance optimization.

WORK EXPERIENCE

Full Stack Web Developer — Botivate Services LLP **Mar 2026 – Present**

On-site · Full-time

- Designed, developed, and deployed multiple client web applications end-to-end — frontend, backend, database design, API integration, testing, and deployment.
- Partnered directly with clients through on-site requirement-gathering meetings, translating business needs into scalable, production-ready applications.
- Built and maintained 7 enterprise systems, including an ERP platform, HR management system (live location tracking and attendance), purchase & sales management, an MIS for centralized reporting, and a document/subscription management system.
- Implemented authentication, role-based access control, file uploads, reporting dashboards, and notification workflows across multiple applications.
- Optimized performance by reducing page load times, streamlining API response speed, and tuning database queries for better stability.
- Collaborated with internal teams to gather requirements, ship new features, and resolve production issues, following clean coding practices.

Technologies: MongoDB, Express.js, React.js, Node.js

Full Stack Web Developer Intern — Botivate Services LLP **Jan 2026 – Feb 2026**

On-site · Internship

- Assisted in building and maintaining client web applications, gaining hands-on exposure to the full MERN stack development lifecycle.
- Supported the team in developing enterprise modules for the ERP and HR management systems, applying REST API and database design best practices.

Technologies: MongoDB, Express.js, React.js, Node.js

KEY PROJECTS

ERP & Master Management System | *React.js, Vite, Tailwind CSS, Supabase, MongoDB*

- Architected a centralized ERP platform for a business client to manage master data, user roles, and cross-department workflows.
- Implemented role-based access control (RBAC) with secure data access backed by optimized database schemas.

MIS (Management Information System) | *React.js, Vite, Tailwind CSS, Supabase, MongoDB, Google Apps Script*

- Developed a centralized MIS dashboard delivering real-time cross-department reports and analytics for management.
- Automated Google Sheets data sync and report generation using Apps Script and Sheets API, eliminating manual entry.

HR Management System | *React.js, Vite, Tailwind CSS, Supabase, MongoDB, JWT*

- Built a full-stack HR platform with employee management, outside-attendance tracking, and live location monitoring for field staff.
- Implemented JWT authentication, role-based dashboards, and validated data handling for attendance, employee, and location records.

Purchase & Sales / Order-to-Delivery System | *React.js, Vite, Tailwind CSS, Supabase, MongoDB*

- Automated the purchase-to-delivery workflow with real-time order tracking, inventory updates, and reporting.
- Integrated backend data services with a responsive React.js frontend for seamless order lifecycle management and stock visibility.

Checklist & Delegation System | *React.js, Vite, Tailwind CSS, Supabase, MongoDB*

- Developed a task delegation and checklist management tool with assignment, status tracking, and deadline monitoring.
- Integrated automated notification workflows to improve team accountability and on-time task completion.

School Website (Full Stack Web Development Course) | *React.js, Tailwind CSS, MongoDB*

- Developed a responsive school website frontend using React.js, Tailwind CSS, and supporting UI libraries.
- Implemented user-based authentication with MongoDB-backed user data to enable secure, personalized access.

EDUCATION

Bachelor of Computer Application (BCA) Aug 2023 – Feb 2026

Kalinga University, Raipur, Chhattisgarh · CGPA: 3.79/4.00

Full Stack Web Development

Avish Educom, Agration Chowk, Durg, Chhattisgarh · Feb 2026

SKILLS

Programming Languages: JavaScript, HTML5, CSS3
Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, NestJS, Redux, Tailwind CSS, Bootstrap, Material UI, Framer Motion, Spring Boot
Databases: MongoDB, MySQL, PostgreSQL, Supabase
Automation & Scripting: Google Apps Script
Authentication: JWT Auth, OAuth Integration
Third-Party Integrations: Payment Gateways, Google Sheets API, Email/SMS Notification Services, REST APIs
Tools & Platforms: Git, GitHub, Postman, Netlify, Vercel, Render, npm
Spoken Languages: Hindi, English
Soft Skills: Problem Solving, Communication, Adaptability, Teamwork, Critical Thinking
