# NIKHIL NISHAD

MERN Stack Developer

Bhilai, India | 6264345297 | nikhilnishad622@gmail.com | LinkedIn | GitHub | Portfolio

## PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building and deploying scalable MERN stack (MongoDB, Express.js, React.js, Node.js) applications. Delivers end-to-end enterprise solutions — ERP, HR & Payroll, MIS, inventory, transport, and purchase/sales systems — by translating client requirements into production-ready software, with a strong focus on responsive UI, secure REST APIs, and performance optimization.

## WORK EXPERIENCE

**Full Stack Web Developer — Botivate Services LLP** **Mar 2026 – Present**

*On-site · Full-time*

- Designed, developed, and deployed **10+ client web applications** end-to-end — frontend, backend, database design, API integration, testing, and deployment.
- Partnered directly with clients through on-site requirement-gathering meetings, building **client-requirement-based custom systems** that are scalable and production-ready.
- Built enterprise systems including ERP, HR & Payroll, IMS (Inventory Management), Purchase & Sales, MIS, Coal & Mining, Transport/Vehicle Management, Petty Cash, and Document/Subscription management.
- Implemented authentication, role-based access control, **PDF / image / Excel upload system**, reporting dashboards, **email integration**, and notification workflows across applications.
- Optimized performance by reducing page load times, streamlining API response speed, and tuning database queries for better stability.
- Collaborated with internal teams to ship new features and resolve production issues, following clean coding practices.

**Technologies:** MongoDB, Express.js, React.js, Node.js

**Full Stack Web Developer Intern — Botivate Services LLP** **Jan 2026 – Feb 2026**

*On-site · Internship*

- Assisted in building and maintaining client web applications, gaining hands-on exposure to the full MERN stack development lifecycle.
- Supported the team in developing enterprise modules for the ERP and HR management systems, applying REST API and database design best practices.

**Technologies:** MongoDB, Express.js, React.js, Node.js

## KEY PROJECTS

**ERP & Master Management System** | *React.js, Node.js, Express.js, MongoDB*

- Built a centralized ERP module to manage master data, user roles, and cross-department workflows with role-based access for a business client.

**HR & Payroll System** | *React.js, Node.js, MongoDB, JWT Auth*

- Employee management with outside-attendance, live location tracking, role-based dashboards, and **fully automated one-click monthly net salary** generation.

**MIS (Management Information System)** | *React.js, Node.js, Express.js, MongoDB, Google Apps Script*

- Centralized MIS dashboard consolidating cross-department data into real-time reports; Google Apps Script automates sync with Google Sheets.

**IMS (Inventory Management) & Purchase / Sales / Order-to-Delivery** | *React.js, Express.js, MongoDB*

- Automated the purchase-to-delivery workflow with real-time order tracking, inventory and stock updates, and sales/purchase reporting.

**Transport & Vehicle Management System** | *React.js, Node.js, MongoDB*

- Managed vehicle and transport operations including challan records, FASTag tracking, and transport documentation with reporting.

**Coal & Mining System** | *React.js, Node.js, MongoDB*

- Built a domain-specific management system for coal and mining operations, developed around the client's specific requirements and workflows.

**Petty Cash System** | *React.js, Node.js, MongoDB*

- Tracked petty cash entries, expenses, and approvals with transparent, easy-to-audit reporting for day-to-day cash management.

**Document Upload System (PDF / Image / Excel)** | *React.js, Node.js, MongoDB*

- Secure multi-format (PDF, image, Excel) file upload and management module integrated across multiple client applications.

**Checklist & Delegation System** | *React.js, Node.js, MongoDB*

- Built task delegation and checklist tracking tools with email/in-app notifications to improve team accountability.

## EDUCATION

**Bachelor of Computer Application (BCA)** **Aug 2023 – Feb 2026**

*Kalinga University, Raipur, Chhattisgarh · CGPA: 3.79/4.00*

**Full Stack Web Development** **Feb 2026**

*Avish Educom, Agration Chowk, Durg, Chhattisgarh*

## SKILLS

**Programming Languages:** JavaScript, HTML5, CSS3

**Frameworks & Libraries:** React.js, Next.js, Node.js, Express.js, NestJS, Redux, Tailwind CSS, Bootstrap, Material UI, Framer Motion, Spring Boot

**Databases:** MongoDB, MySQL, PostgreSQL, Supabase

**Automation & Scripting:** Google Apps Script

**Authentication:** JWT Auth, OAuth Integration

**Third-Party Integrations:** Payment Gateways, Google Sheets API, Email Integration, SMS Notification Services, REST APIs

**Tools & Platforms:** Git, GitHub, Postman, Netlify, Vercel, Render, npm

**Spoken Languages:** Hindi, English

**Soft Skills:** Problem Solving, Communication, Adaptability, Teamwork, Critical Thinking
